

# STRATHMORE STANDARD

VOL XXXIII — No. 43 —

Strathmore, Alberta, August 27th, 1942

Subscription per annum — \$2.00; Foreign — \$2.50

## C.W.N.A. OFFICERS FOR 1942-43

At the 23rd annual convention of the Canadian Weekly Newspapers Association in Saskatoon, R. H. McLean, Kelowna, B. C., was elected president. F. P. Galbraith, Ired Deer Advocate, is second vice-president. Alberta directors are L. D'Aibertson, Chauvin, Charles Clark, Jr., High River.

## NATIONWIDE SALE OF STAMPS AND WAR CERTIFICATES

Thursday, Sept. 3, from 3:00-3:15 p.m. all places of business in Strathmore will be closed to business and instead the sale of Stamps and War Certificates will be the only business conducted.

Be prepared.

## MEETING OF WAR FINANCE COMMITTEE

Friday evening a full meeting of the above committee was held to discuss and plan for the forthcoming Victory Loan.

Mr. Speers, Divisional Superintendent, and Mr. McNeill of the Publicity Committee were also present from Calgary.

The Victory Loan Drive is to be made in October.

Members of the local committee are:

E. N. Ridley—Chairman.  
Jas. Harwood—Vice Chairman.  
Frank Fulton—Unit Organizer  
E. N. Ridley—Chairman Public Relations.

Geo. Quirin—Chairman Payroll Section.

General Sales Committee—H. McGregor, T. E. Wright and Morton McElroy. Organization—Canvassers of districts.

## Nephew of E. N. Ridley Missing at Dieppe

Among the list of Canadian officers missing in the recent engagement at Dieppe, France, was Lt. Col. R. R. Labatt of the Royal Hamilton Light Infantry.

Col. Labatt, a nephew of Mr. E. N. Ridley, was employed for a short time some years ago on the staff of the D. N.R. engineers at Strathmore after leaving Military College, Kingston.

'Bob' as he was familiarly known was a general favorite and made many friends while here. He was a keen soldier, beloved by the men in his regiment, as was his father the late Col. R. H. Labatt who served in France during the last war with the same Corps.

## CONSERVING TIN

Entrance of H. J. Heinz Company of Canada, Ltd., into the condensed soup business was announced was announced by H. J. Heinz II, president. The new line is part of the Heinz Company's effort to aid in supplying prepared foods under wartime conditions. This radical departure in changing from "ready-to-serve" to "condensed" soups is an effort on the part of the company to conform to the desire of the government to conserve the nation's supply of tin.

The average lightning stroke contains enough electricity to momentarily light a city of 15,000 population.

## NURSES URGENTLY NEEDED

Plans are now being formulated by the Canadian Nurses Association to overcome the "acute shortage of well qualified graduate nurses in Canada which will become even more alarming as the months pass," Miss Rae Chittick, president of the Alberta Registered Nurses Association, announced today.

"The situation today can be explained briefly as follows," Miss Chittick said, "Normally we have about 23,000 graduate nurses in Canada.

"The average number of students enrolled in Schools of Nursing in Canada is 11,200 of which about 3,000 graduate annually, but approximately 30 percent marry within two years of graduation and are lost to the profession.

"At present there is an alarming shortage which can only be remedied if parents, and daughters who show inclination and who have the educational background, will interest themselves in this worthy work.

Married and retired nurses who are physically fit can assist by reporting back for duty and, where necessary, take refresher courses which are now being planned.

"All the efforts of the Association, however, cannot overcome the shortage unless eligible young women and their parents realize that, upon them, to a major extent depends whether this alarming situation be remedied."

Alberta Nurses Association  
\$15 15th Ave. West  
Calgary, Alberta.

## TOWN HANDYMAN

At a meeting of the Town Council held on Wednesday, Mr. Jack Bennett was appointed tentatively to the position of Handy-Man, subject to confirmation at the end of November next.

## Special Sale War Savings Stamps Thursday, Sept. 3rd

A special sale of War Savings Stamps is being organized for Thursday, September 3. On that day merchants and their staffs will make a special effort to promote the sale of stamps. From 3 to 3:15 p.m. Alberta stores will stop selling merchandise and put their efforts on selling stamps. The idea is not just a stunt to sell War Savings Stamps, but to make these fifteen minutes a period

when we can stop thinking about ourselves and think about our country and the position of the United Nations in the war.

Thos. E. Wright is Chairman of the Committee in Strathmore and states that practically all of the business places in town now have War Savings Stamps for sale, and with the co-operation of the merchants and the public, Strathmore should make a good showing in the sale of extra stamps on Thursday, September 3rd.

## DEATH OF DUKE OF KENT

The British Empire will mourn the death of the Duke of Kent who with the entire crew of his plane died in a crash in Northern Scotland on their way to Iceland.

The Duke is the youngest brother of King George. Canadians will recall his visit to Canada last year when he travelled from coast to coast, showing the keenest interest in all branches of the R.C.A.F.

## SALVAGE —CHECK ON RUBBER

A man who travels considerably through the country recently stated that a check up of waste rubber lying around the country would be a surprise to many.

This should not exist after all the urgent calls that have been made for rubber.

Hence the Salvage Drive now being organized should prove of value.

Mr. Shelme of 422 Burns Building, Calgary has opened an office for the purpose of co-ordinating the Salvage Drive.

This rubbish situation should be brought to the attention.

## WHEATLAND S. D.

The regular monthly meeting of the Board of Trustees of the Wheatland School Division No. 40 was held on August 21.

The Paddy Springs school, west of Beiseker, was closed owing to small attendance and arrangements were made to transport the children to the adjoining school district of Level-Land.

Mrs. Mary H. Nasen of Kathryn was engaged as Home Economic teacher for one day a week for Kathryn School. Mrs. Nasen will also teach Home Economics one day a week at Beiseker School.

Two school vans were purchased to be put into operation on Sept. 1. One will take the children from the Rosebud Valley School District into the Rockyford school. The other will take the children from the Ardlebark School district into the Swallow school. Both the above mentioned schools have been closed.

A vote of thanks was passed to the residents of the Grange Valley School District for the digging of the new school basement which was done free of charge.

All schools in the Division, including High Schools, will open on Tuesday, Sept. 1, at 9:30 a.m.

## THE 'OUT-SIDE'

### ● MERVYN MOORE ENLISTS

Mervyn J. Moore, for the past three years city editor of the Calgary Herald, left Tuesday to enlist with a defence unit, now training at the west coast. He had been on call for several months to go to officers training school in either the artillery or infantry, but preferred the armored unit. Moore was formerly connected with the Vancouver Province.

### ● TOMATOES FOR ARMED FORCES

Enough canned tomatoes to satisfy the normal demands for a year of every man woman and child in Montreal, Toronto and Vancouver are being put aside for Canada's armed services, it was announced by the department of munitions and supply.

### ● HOW HE MANAGED IT

Irishman's Idea For Having His Garden Really Dug

An Irish soldier, on duty in Egypt received a letter from his wife stating that there wasn't an able-bodied man left in his native town, and she would have to spade her garden herself.

Pat immediately sat down and wrote a letter in reply. And he began his letter with: Bridget, please don't dig the garden; that's where the guns are."

The letter was duly censored, and in a short time a lorry-load of uniformed men arrived at Pat's home and proceeded to dig up the garden from end to end.

In desperation Bridget again wrote to her husband in Egypt, saying that she didn't know what to do, as the soldiers had dug up the entire garden space.

Pat's reply was short and very much to the point.

"Go ahead," he wrote, "and plant the spuds."

### ● GRACE IN SHORT SKIRTS

One London columnist sums up the feminine reaction to the trend towards short skirts with this quote from a lady friend: "Most of us are in favor of it, but it will be necessary for us all to sit and walk gracefully."

### ● INDIAN GIRL ENLISTS

Mary Greeyes, 21, of Leask, Sask., became the first Indian girl to join the Canadian Women's Army Corps in Saskatchewan. A full-blooded Cree, she came off the Muskeg Lake reservation to join the ranks of the corps as a cook.

● Persons who wish to send all or part of their ration of sugar, tea or coffee to civilian friends and relatives overseas can do so, it was stated recently at the Calgary office of the War-time Prices and Trade Board. The holder of a ration card is entitled to his allotment and can dispose of the commodities as he wishes.

### G.C.F. IN TEN YEARS (Toronto Saturday Night)

● The next ten years will be very eventful ones in the history of the new party (G.C.F.). We certainly do not predict its disappearance from the political arena. We do predict a very considerable modification of its ideas, a growing recognition of what is practicable, and an increasing skill in the manipulation of the electorate. But it will not remove injustice and inhumanity from Canada, and if it ever gets into power it will probably not even want to.

## CANADIAN FIREMEN WELCOMED IN LONDON

Herbert Morrison, minister of home Great Britain to serve with the National Security, attended the reception in Trafalgar square, London, to the first contingent of the Canadian Corps of firefighters, who have arrived in will eventually be sent to Britain.

Photo shows Mr. Morrison with Vincent Massey, High Commissioner for Canada, inspecting the Canadian detachment.

## HOMELY HOMILY

—BY A SKY PILOT—

### A CHRISTIAN PEACE?

A man noted for his enthusiastic patriotism remarked to me the other day: "Our trouble," he said to me, "is that we haven't made war yet! We must learn to hate all those d—d Germans and yellow bellied Japs everywhere with a really bitter Christian hatred."

I asked: "What will the world be like after we have won this war if everyone's heart is filled with hatred for other human beings. Will that make peace possible?"

"Haven't any idea what the world will be like after we have won this war. Can't see any star of hope shining—none on the horizon yet. But this much I know, when we get our foot on the neck of those d—d Nazis and Japs we'll keep it there for a long time," he replied.

I could not help asking: Will that, or can that bring peace to the world. It's the age-long system which men have trusted and by which each past war has been the cause of another bigger and better war in the future."

Then I remembered the story couched for by a well-known and widely

beloved Minister and Pastor. It is the story of a Christian mother in the suburbs of Los Angeles who for years had bought all her fruit and vegetables from a little Japanese neighbour woman. Their sons grew up together, played together, and grew up to be fast friends as their mothers had become.

Then came December and the war between Japan and the U.S.A. The Jap father was interned and the little Jap mother lived in constant fear of evacuation. The Jap-American lad worked on a farm and the white American lad joined the Navy. In their loneliness the two mothers were drawn still closer together. They shared each other's burdens, fears and sorrows.

Returning home from the Market one day the white woman was met at the door with a telegram advising her that her son had been killed at Pearl Harbor. Within an hour she put her own terrible grief aside as she remembered the little Japanese friend who had also loved the boy now dead. She returned to the Market to break the news gently before it came out in the papers. And soon, the little yellow-faced "enemy-alien" found herself in the arms that had first cradled the sailor boy now gone forever. "Oh, my dear," the white mother said, "I could not wait to tell that you are in no way to blame, nor are your people. War

killed our boy as it will kill many Japanese boys, and neither you nor I can help it. I still love you and need you now more than ever before. I'm always your friend and you are mine and no matter what our governments may do we shall be friends."

And there, a half a world away from the manger in Bethlehem the Peace-Making Christ was born anew in two hearts in that humble market stall. Another star of hope arose to cast its guiding light upon an erring and suffering world.

I thought of the man who had spoken of a "bitter Christian hatred". I knew not what it meant, for surely that must be a contradiction in terms, since the heart of Christianity is the heart of a loving Heavenly Father. If I could perceive of a "hard frozen flame of fire" I might understand what is meant by "bitter Christian hatred."

The reader must for himself decide which of the two attitudes prepared above will bring peace to the world of tomorrow.

When our children's children shall think of war

As a madness that may not be,  
When we thank our God for the grief of today

And blazon from sea to sea,  
In the name of our dead, the Banner of Love—

That will be Victory!

### Her Words Are Music

Melisande Garcia was born in Santiago, Chile, studied art in Brussels and Paris, toured Canada with Francis Lederer's company in "Autumn Crocus" two years ago, made her first radio audition at Toronto less than two months ago, made her network debut two days later. Senorita Guerrero's delightful voice has added a Spanish note... piquant and vivacious... to the current CBC musical presentation, "Serenata". The programme heard over station CBK Watrous (540 Kcs.) presents Latin American music at 7:00 p.m. MDT, from Toronto, under the direction of Isidor Scherman.

### RATION BOOKS TO BE SENT OUT BY SEPT. 7

When 11,000,000 Canadians receive their new six-month ration books, not later than September 7, they will be assigned an individual serial number which will probably assume increasing importance as the war continues, it was understood from official sources recently.

The new books, which replace the temporary cards now in use for sugar, tea and coffee rationing, will include a number of extra sets of coupons for weekly or bi-weekly rations of other commodities, if it becomes necessary.

Coupons for tea and coffee, which may not be purchased for children under 12 years, will be removed from children's ration books before they are distributed.

The six-month ration books are to be used instead of the temporary cards after September 8.

### FROM LIPSTICK TO SHELL CASE

Canadian metal supplies will be stretched out by suiting sizes and styles of spades and shovels, scoops and scrapers by one third. An even hundred different weights of axes and adzes have also been eliminated by the fabric steel administration of

the Wartime Prices and Trade Board. All very practical.

Very practical too is the Toronto firm which is making cases for lipstick and compacts out of polished Canadian wood. The brass used in cosmetic containers in Canada in one year is sufficient to make 21,000 aircraft shells. Milady's lipstick holder will make a good bullet.

## Will Be The Future

"The children of today are in our hands; whatever we do for them will be the future."

Francis W. Parker.

SEPTEMBER IS HERE  
NEXT WEEK

THAT signifies the reopening of schools for the Fall term.

The first month of the Autumn and payment of regular instalments on every man and woman's income tax instead of in lump sums later in the year.

The War Finance Committee says: The only real danger to public morale on the financial front would be the continued exaggeration of the importance of these new budget features in their relationship to the job confronting the country of securing two billions of dollars in loans from the general public as was done last year.

Our men have gone through Dieppe, Hong Kong, Pearl Harbor and are facing more and more of these horrors before Victory is won.

That is why the drive is being put on this Fall for more Stamps, War Certificates and Bonds.

## DIEPPE

OFFICERS and newsmen alike report the bravery and initiative of the Canadians at Dieppe.

That is one side of the story, the other is the long list of casualties that is bringing home to Canada the message of sorrow that only those who know can understand. These lists will unfortunately be lengthening before victory is won and Nazi rule overcome.

One can only work and pray that the time be not too far distant.

AIRGRAPH LETTERS  
FROM HOME

A HIGH value has always been set upon "letters from home" and the government has attempted to facilitate and speed up their transmission wherever and whenever possible. The latest development is the airgraph service.

The airgraph service is available in Canada and may be used to send letters to members of the services anywhere in the world and to civilians in the United Kingdom. Forms may be obtained at the post office in the district in which you live. You write your message in black ink and it is photographed and a miniature photographic negative is sent by air to its destination where a photographic print is made and delivered to the addressee by the post office. Messages have been delivered in ten days. Charges for a message sent from a civilian to a civilian is ten cents and from a soldier to a civilian or a civilian to a soldier is six cents.

There are many boys from this district serving in His Majesty's service abroad. It is the duty of those left behind to write to them and write often. By using the airgraph service your letters will arrive at their destination in most cases sooner and you will be saving shipping space which is very precious these days.

There is a fortune awaiting the man who can invent a shoe string that won't break when you are in a hurry.

## ROCKYFORD

— By K. M. G. —

The 1942 harvest is just at our door. Several farmers are swathing an early field or two and also a few fields are cut and the general rush will be here in a few days if the rain stops and a spell of warm weather comes instead.

Mr. Victor Podhorski of the R.C.A.F. was home for a weekend leave. He is still stationed at Calgary.

Pine Lake again claimed some of the Rockyford people over the week end, Mr. and Mrs. L. W. Roppel and family, Mr. and Mrs. J. Tomte and Mr. and Mrs. Griffiths and Lois.

Mr. and Mrs. Bert are alone again after a visit from their family. Miss Alice left on Sunday morning for her position at Raymond, Mrs. Short to Lethbridge and the nephew, Eric Claridge, called back to Calgary where he is with the New Zealanders training camp.

The postponed annual United Church Sunday School picnic was held on Wednesday, August 19, at the Rosebud Valley School grounds. The children and everyone else seemed to have a wonderful time right from the car ride out and grand lunch, through the sports to the generous supply of ice cream given to each and all. About 75 gathered for the event.

Mr. Karn Wyma went to Calgary last week to start his training in the regular army as a motor mechanic.

A very pleasant evening was spent at the hall on Friday, August 22nd when a host of friends of Mr. and Mrs. Lawrence Roppel gathered in a show-er in their honor of their recent marriage. A nicely decorated table was laden with beautiful gifts, and at the lunch hour a long table was set at the head of the hall for the honored guests and their immediate friends and relatives. During this time Mr. Geo. Kennedy presented the good wishes of the community and the gifts on display, in a few well chosen words, for which both bride and groom replied very nicely and thanked everyone, with special mention of Mrs. Piegans and her daughter, Eva and Miss Mary Miller who were those who arranged the event. Dancing was resumed for the balance of the evening to the strains of the Rosebud orchestra.

Mr. Andrew Melissac is again back in Rockyford. He had joined up with the Army several months ago, but his health gave out and he was discharged last week.

A wedding of interest to many Rockyford friends was conducted from the Anglican Church in Belleville, Ont. on August 15th, when Miss Helen Chamberlain of Belleville became the bride of Flt. Sgt. Donald A. Walrod, youngest son of Mr. and Mrs. C. R. Walrod of Rockyford. Flt. Sgt. Walrod has been stationed at Trenton for sometime.

"It is difficult for an outsider to get into the best Hollywood society," says a writer. Presumably one has to live there quite a time before beginning to move in the best triangles.

## Pot Pourri

## FOR AFTERWARD

"It may grow harder," he said, "harder each day to hold fast, even to remember the untired way. Do not pretend, or deny, or close the eyes:

it may grow harder—harder—I say, for the voices are rolled again to the skies in blindman's cry, and there is the old, immemorial start of violence in heart, of vengeance in heart.

Do not despair. But if you would find the valor to bear pity and peace

through aftermath of savagery, prepare, prepare! Do not pretend the war will end as a storm might cease with sun returned of itself to air rinsed sweet by rain.

Many will not so soon forget so great a pain; many will still in fear, quite miss these words you hear, these words I speak:

It will take more of faith to begin battle for light than ever it took to stand, like this against the night: for only the pure in heart can win, only the meek."

Doris Peel.

## TEN SUPERLATIVES

The best day—today.  
 The greatest mistake—giving up.  
 The greatest need—common sense.  
 The worst bankrupt—the soul that has lost its enthusiasm.  
 The greatest comfort—the knowledge that you have done your work.  
 The best work—that what you like.  
 The most expensive indulgence—hate.

The greatest stumbling block—egotism.

The easiest thing to do—find fault.  
 The greatest trouble maker—talking too much—The Educator.

YOU MUST STAY  
IN THE RUTS

Message of Rt. Rev. A. H. Sovereign, D. D., Bishop of Athabasca, Peace River, Alberta.

As I was leaving a garage on a rainy day in our Peace River Country, the proprietor said, "Choose your ruts carefully; you will have to stay in them for a good many miles." I saw a teen aged boy starting off on life's highway, so I called to him, "Choose your ruts carefully; you will have to stay in them for a good many miles." The "Teen-Age" is the period of choice in each life. Here the trails are discovered, here the great choices of life are made. Generally speaking, your habits of life, your attitude of mind, the grooves of unconscious action change very little after you pass the twenty-first milestone.

The Chaplain of Sing Sing found from the records the approximate time in life when a boy began his downward career, one said 16, one 14, one 15 with very few after twenty-one years.

Today in this great hour, youth faces the dividing trails. Choose ye this day whom ye will serve—truth or falsehood, right or wrong, service or greed, love or hate, good or evil, God or the devil. Today you have the power of choice. You are free to make the choice; You are responsible for that

### NEW APPOINTMENTS TO STAFF OF UNIVERSITY OF ALTA. ANNOUNCED

Appointments to replace members of the staff who have been granted leaves of absence or who have resigned to join the armed services are announced by Dr. Robert Newton, president of the University of Alberta.

Dr. Newton said that while enlistments and resignations for other reasons were having an effect on the university staff, this situation was being balanced to some extent by the expected decrease in student registrations owing to the war's need of men.

Capt. James Whyte, professor of botany, has been granted leave of absence to take over the position of quartermaster at the New Wetaskiwin army training centre. Lieut. J. T. Jones, Professor of English, has also been given leave of absence to join the military staff at the Wetaskiwin centre.

Lewis Thomas, lecturer in history, is now on leave of absence and is joining the navy.

Edward Greene, lecturer in French, was given leave of absence some time ago to join the intelligence branch of the army.

Resignation of Horace Jacobs, lecturer in French and German, was announced some time ago. He has joined

the armed forces.

Appointments to fill these vacancies were also announced by Dr. Newton.

Prof. Albert Cru, of Teachers' College, Columbia, New York, has been appointed to lecture in modern languages at the University of Alberta. He is on Sabbatical leave from Columbia and has taught at the Banff School of Fine Arts. He will replace Mr. Greene and Mr. Jacobs and Maj. Dennis Healy. Maj. Healy was given leave of absence some time ago to join the army.

Miss Mary Faunt, a graduate of the University of Alberta, in modern languages, has also been appointed to lecture in this subject.

Dr. Mary Winspear of Toronto has been appointed part-time lecturer in English and adviser to women students at the University of Alberta.

### CHRISTIAN SCIENCE

"Christ Jesus" is the subject of the Lesson Sermon at Christian Science Churches on Sunday. The Golden Text is John 1:17. One of the Scriptural citations is "For whosoever will save his life shall lose it; but whosoever will lose his life for my sake, the same shall save it." (Luke 9:24) One of the correlative "passages from 'Science and Health with Key to the Scriptures' by Mary Baker Eddy, is

### NEWS FROM O'SEAS

SERRES SADLER WRITES  
FROM ENGLAND

England, 27-7-42

Dear Mrs. Moore:

Have just been reading the Standard of June 25. It arrived tonight. Really, Mrs. Moore, I owe you an apology for not writing to thank you for the paper before as I have been receiving it for a long time and I presume you are responsible for sending it to the Strathmore men over here. It is very, very welcome I can assure you, and I don't think I miss any of it when reading. One of the things I look very eagerly for is the weather at home, as I am still a farmer even if the occupation I'm now employed in is more destructive than constructive. Tomorrow, I am going to the Divisional sports to pull on a tug-of-war team for our brigade as we already won the brigade sports. A short time ago I made several records for the B.B.C. about farming, etc. Believe they or some of them will be heard in America no doubt before this letter arrives. I've done several very interesting things over here aside from the army. Once gave a cowboy exhibition for the Daily Mirror. By the way, after the first pictures were published the Society for Prevention of Cruelty to Animals suppressed the rest. Then I spent two weeks on a farm working last year and learned a lot about English farming life. Altogether besides a lot of soldiering a little bombing, etc., it's all helpful to fill in the time. Of course by far the most important thing I did was to get married to a very lovely lady who has more than made up for all the discomforts and loneliness of being away from home. I intended at the time to send you an account of our wedding but that being a bit out of my line I never did it.

Well, to wind up, I'd like to say hello to all my friends and neighbors back home and I'll be seeing you, but I can't say when.

Serres Sadler

"Jesus foresaw the reception Christian Science would have before it was understood, but this foreknowledge hindered him not. He fulfilled his God-mission, and then sat down at the right hand of the father."

### THE WEEK IN EDMONTON

By DAN. E. C. CAMPBELL  
Director of Publicity

Trucks travelling on Alberta Highways will be required to restrict their loads to 15,000 pounds per axle, according to regulations made public this week by the Highway Traffic Board. In addition a speed limit of 30 miles an hour has been set for all trucks except light panel deliveries up to three-quarters of a ton capacity. There may travel at 40 miles an hour.

#### R. R. Development in Far North—

Alberta and British Columbia government officials met in Edmonton this week to discuss railway development possibilities between Alaska and the western provinces. Heading the British Columbia delegation was Premier John Hart, while Premier Abernethy headed the Alberta group.

According to the interim financial report this week by Hon. Solon E. Low provincial treasurer, there was an overall cash surplus of \$2,587,993.17 on operations covering the first three months of the present fiscal year. This is an increase of \$351,642.24.

#### The Province Gets Good Hearing at Ottawa

Alberta's representatives on the manpower situation and the dearth of war contracts in the province were well received by federal officials in Ottawa, according to Hon. E. C. Manning, who led a delegation to the national capital. The case for Alberta was representative of a common basis

of agreement which was found by delegates from agriculture, labor, industry, local government and the province at a recent Edmonton parley. The proposals include measures for stopping the manpower drain, for the decentralization of industry, the utilization of raw materials for processing as close to source as possible, and the employment of help as close to home as is feasible.

#### Treatment for Infantile Paralysis

The famous treatment for infantile paralysis evolved by Australian nursing Sister Kenney will be demonstrated before Alberta medical men who attend a refresher course to be held at the University of Alberta, Sept. 7 to 11. The demonstration will be given by Miss E. Wood, physiotherapist, and Prof. Huckell, orthopaedic surgeon. Sister Kenney is an Australian bush nurse—somewhat similar to Alberta's district nurses—who evolved the successful and revolutionary treatment when far from medical centres. She is at present in the United States on government invitation, and is teaching her methods to many others.

#### FOUND A NAIL

War priorities and shortages entered the life of a Brantford contractor who could not buy enough nails to complete a job. He walked disgustedly to his car where he found a long spike had caused a puncture in one of the tires.

As a Royal Canadian ship-of-war pulls away from the dock, officers of the Army and the Navy stand at the rail. Here is symbolized the cooperation between two services which en-

ables swift movement of military forces on Canada's coastlines to shore positions, inaccessible by other means of transportation. Between all three of the armed services there is a high

degree of coordination in defence, combining in a never-faltering vigil prepared to meet the enemy from any angle of approach to Canada.

PERSONAL BUDGETS  
NECESSARY

For two years, citizens of Canada  
 have been advised to set up budgets  
 for personal incomes, in view of the  
 great need to divert as much as pos-  
 sible from personal incomes to Can-  
 ada's war chest through the purchase  
 of bonds and certificates. At this point,  
 that advice holds good, but instead of  
 being offered casually it will have to  
 be shouted from the house-tops.

Unpatriotic Canadians can continue to  
 live the same kind of private lives  
 during the coming year as they have  
 enjoyed during the past year in spite  
 of sharp increases in income taxation.  
 They can do this by cutting out their  
 purchases of certificates and bonds.  
 The patriotic citizen, who realizes  
 that his country has to meet the ob-  
 ligations of a war for his freedom,  
 can not maintain the same standard

of living during the coming year as  
 he has in the past. He has to plan not  
 only to pay his income taxes but to  
 buy even more certificates and bonds  
 than ever before.

It is plain that in order to carry out  
 this program, both the wealthy and  
 people with slender means, will be  
 and more carefully, since in most  
 cases reductions must be made in  
 spending other than for rent, property  
 taxes and food.

**PRAYER FOR A PILOT**

Lord of the Sea and Earth and Air.  
 Listen to a Pilot's prayer—  
 Send him a wind that's steady and  
 strong.

Grant that his engine sings the song  
 Of flawless tone, by which he knows  
 It shall not fail him where he goes;  
 Landing, gliding, in curve, half roll,  
 Grant him, O Lord, a full control.  
 That he may learn in heights of  
 Heaven

The rapture altitude has given  
 That he shall know the joy they feel  
 Who ride Thy realm on birds of steel.  
 — Cecil Roberts.

 Director, Agricultural Department  
 North-West Line Elevators Association

**An Ounce of Prevention . . .**

Prevent insect infestations by a  
 thorough cleaning of your granary  
 NOW. Insects often remain in empty  
 bins. If bins are not cleaned the  
 insects are given a head start in  
 your 1942 storage. It is the duty of  
 every farmer to maintain his grain  
 in the best possible condition. After  
 the grain leaves the farmers' hands  
 it is public property and insect infes-  
 tations cause national losses.

The following measures are sug-  
 gested as practical means of keeping  
 grain stored in condition:  
 1. Brush down walls thoroughly.  
 Clean all cracks and remove all grain  
 debris. Sweeping the floor with  
 damp sawdust will remove grain  
 mites and small insects as no other  
 method will do.

2. Sprinkle a small amount of  
 hydrated lime over the entire floor  
 and then carefully sweep to fill all  
 cracks.

3. Where granaries have been in-  
 fested in the past with grain mites  
 or insects, clean the granary as out-  
 lined above and then give the entire  
 inside a coat of whitewash. In some  
 cases a quart of a pound of lye per  
 gallon of solution (observe usual  
 precautions to avoid lye burns).  
 Allow to dry at least four warm days  
 prior to binning grain.

4. Carefully examine bin after  
 applying these measures and if live  
 insects are still found an insecticidal  
 spray should be used. Information  
 on these sprays may be obtained  
 from the Grain Research Laboratory,  
 Winnipeg, or the Division of Ento-  
 mology Ottawa.

5. Repair all leaks to prevent entry  
 of moisture to grain. In some cases  
 a complete lining of moisture proof  
 paper will be necessary.

6. Provide all possible ventilation  
 in your farm bin without allowing  
 moisture to reach the grain.

7. Examine your grain frequently.  
 If you find insects or mites take a  
 sample to your elevator agent or  
 send it to the Grain Research Labo-  
 ratory, Winnipeg, or the Division of  
 Entomology, Ottawa. Contributed  
 by: H. E. Gray, Division of Ento-  
 mology, Department of Agriculture,  
 and Dr. E. M. Smallman, Grain  
 Research Laboratory, Board of Grain  
 Commissioners for Canada.

# Eat Hash— and like it!

"I tell my family that as long as Jack is overseas, we'll eat hash and like it."

"WE ARE at war. It costs lots to win. It would cost everything to lose. So I don't figure that because we'll soon pay a small amount as compulsory savings, I can fold my hands and say 'That's that!' No sir! Some people may need compulsory savings to save something for their own good. But that's the minimum. I'm out to save all I can to buy War Savings Stamps and Certificates to help win the war and have something substantial put by for the days when there won't be all this work and overtime."

"I've christened my garbage can 'Hitler' and believe me he doesn't get anything that's worth anything."

Buy War Savings Stamps from druggists, banks, post offices, telephone offices, department stores, grocers, tobacconists and other retail stores. Certificates may be purchased for immediate delivery in denominations of \$5, \$10, \$25 from banks, trust companies and post offices.

National War Finance Committee

## A GOOD YOKE

The boys in the R.A.F. aren't the only "birds" laying "eggs" these days. There are a few thousand conscientious biddies setting right here on the home front who have been shelling ut pretty generously since the war began. Of course they've been doing the same thing for centuries, so it's really getting to be a habit, this egg laying business, but it's a profitable one.

While it's questionable whether the motive behind the increased egg production of Canadian hens is on their part a patriotic one, the results are worth crowing about. It's only fair, of course, to mention that although egg production is dependent in a large degree upon the caprice of the hens, a good deal of credit must go to the poultrymen who are devoting increased time and energy to obtaining greater and still greater efficiency in feeding and management technique. The combined efforts of both have given rise to a new war industry in the

Dominion Drying Eggs for Britain.

This is the way it works. A group of 30 or 40 girls spend eight and a half of their waking hours doing nothing but break eggs, sometimes as many as 14,000 of them! The liquid of the broken eggs is dumped into a huge vat, passed through a filter and finally into a pump which forces it at high pressure through a small pipe to a considerable height from which point it is sprayed down into a large dryer. At the same time hot air enters the dryer and comes into contact with the fluid while it is in midair, and it falls to the bottom in powder form. A further process of shaking and sifting and evaporating completes the operation and the eggs are packed in wooden barrels of 140 pounds capacity, ready for Britain.

It takes approximately 4 pounds of egg fluid to make one pound of powder, but think of the vital shipping space conserved! John Bull will find difficulty in whipping up an omelette for breakfast, and it may not look

## EXPECT 150,000 PASSENGER CARS WILL BE OFF ROAD BY NEXT JUNE

Operators of commercial vehicles who fail to make efficient use of their tires may be refused renewals by tire ration representatives, Supplies Controller Alan H. Williamson told newspapermen in a review of the rubber situation.

"Those who overload their trucks or otherwise abuse their tires unnecessarily may be refused renewals," Mr. Williamson said. "Instructions to this effect are going out to the tire ration officers throughout the country."

Mr. Williamson said bluntly that the rubber situation is no better than it was when the Canadian public was first informed, after the outbreak of war with Japan, that there would be no replacement of tires on private cars. Once they are worn out, driving is finished for those car owners, he said, adding:

### No Tires For Many

"We estimate there are 800,000 cars in Canada which have no hope of new tires until after the war unless something develops in the way of rubber production or rubber substitutes of which we at present know nothing."

"An estimated 150,000 passenger cars will be off the road by June, 1943 and they must be regarded as a prospective source of supply of tires for reclaim and for the use of those users whose automobiles are regarded as essential."

Mr. Williamson said rubber supply authorities hope that when the average motorist finds he no longer has four efficient tires that he will lay up his car and sell the tires. It was not expected that commandeering of tires would be necessary to supply essential passenger cars.

"Instead of Canadians thinking their used tires and other rubber salvage is not wanted because it remains in a pile in their home town, they should think of these stores as the last bank of rubber we have, and add to it with all their might knowing that every scrap will be needed."

Canada was using from 15,000 to 20,000 tons of reclaimed rubber a year requiring from 17,000 to 23,000 tons of scrap rubber. This reclaimed rubber represented 2,700 tires.

### Synthetic Plant

For essential purposes, the reclaimed rubber was used with crude, drawn from the limited and irreplaceable Canadian stocks. By the time the crude bank had been exhausted it was hoped Polymer Corporation, Ltd., government-owned company, would be producing synthetic rubber in sufficient quantity to replace crude, for use with reclaim supplies. It was hoped the Polymer plant at Sarnia, Ont., would be in production late next year.

When their old tires were finished, operators using their vehicles solely for the transport of non-essential goods between major points would not be able to get replacements. The shipments would have to be made by rail or boat, unless they were part of a mixed cargo containing some essential goods.

Lanbridge Herald.

much like eggs of the "good old days" but from a spoonful of the powder he will obtain the benefits of the original "fruit"—protein, vitamin A and iron—just the same, for the nutritional qualities are unimpaired.

There are several egg-drying plants in Canada, many of which were once used for the purpose of drying milk. Over 35 carloads of eggs are powdered each week, and this total is expected to be more than doubled in the near future. So, although it's sort of a "foul" business, the results are amazing, especially "over there."

# FALL TERM

## AUGUST 31

URGENT DEMAND FOR GRADUATES OF BUSINESS COURSES.  
ASK ABOUT OUR NEW EMERGENCY COURSE.

Employment calls have been outnumbering graduates for months at Garbutt's.

Trained secretaries, bookkeepers, Office Assistants and Office Machine Operators are needed in defense industries, in government and military offices.

Starting salaries are good! The opportunity to become firmly established in a position with a future, however, is perhaps the strongest reason why high school and college graduates of vision and initiative are enrolling in large numbers.

Our Employment Secretary is in close contact with business firms which have the best jobs to offer.

COURSES OFFERED—Secretarial Course — Accountancy Course — Stenographic Course — Comptometer Course — Civil Service Course.

### GIRLS' CAMP CLOSES

A group of thirty-eight happy girls with their camp leaders making in all forty-five, returned last week from a joyful and profitable twelve days at Fairweather Camp.

The Camp leaders included Rev. and Mrs. Hunt, Mrs. M. Cragg, Miss Gwen Hunt, Miss Betty McMurray, Miss Joyce Stang, Eleanor Whitbread and Mrs. Smith.

Miss June Smith who taught in Strathmore Public School last year, called on a number of Strathmore friends Sunday evening before leaving for Banff this week where she has been engaged as teacher in the Primary Department for 42-43.

Miss Mary Awocek of Calgary enjoyed a visit with Miss Gwen Hunt during the week.

Mrs. Thurston invited a few friends Friday afternoon to meet her guest, Miss MacKay of Edmonton. A very interesting hour was spent.

Miss Eileen McParland returned Saturday from a happy holiday at Creston, B. C.

Leonard Van Tighem is home on a month's leave to recuperate following an appendicitis operation.

Mrs. T. E. Wright has as her guest for the week her sister, Mrs. Fraser of Edmonton.

Nominations for Mayor will be held Tuesday, Sept. 1, from 11-12 noon.

Mrs. Patricia enjoyed several days visit with Mrs. Boese in Calgary last week.

Born to Mr. and Mrs. Carl Sorensen in the Holy Cross Hospital, Wed., Aug. 19, a fine baby girl.

Mrs. Young and daughter, Diana, are leaving for Vancouver shortly where Diana will enter university.

Don Wright has been transferred to Edmonton from Calgary and is in the office of Mossie and Fenwick, Insurance Co.

Congratulations to Fred Hirtle, who graduates as Sgt. Pilot and receives his wings Thursday at Dauphin, Man.

Miss Elsie Sorensen is being transferred to the MacLeod Telephone Office. Elsie will be much missed in our town.

Miss Daisy McMurray of Vancouver is a guest for the week at the home of Mr. and Mrs. D. McMurray.

Mrs. Wagstaff has as her guest for the week her sister, Mrs. Fred Gilhart and daughter June, also Mrs. Milcan and daughter Rita all of Calgary.

Strathmore Schools, both Public and High will open for the Fall Term Tuesday next, Sept. 1 at 9 a.m.

### Farewell Services

Rev. Leslie T. H. Pearson will conduct his final services as Incumbent of St. Michael's Church and Parish next Sunday, leaving during the week for Calgary where he has been appointed Rector of St. John's Church. Mr. and Mrs. Pearson have many warm friends in Strathmore who will always be interested in their future welfare.

Mr. Sweet of Calgary, High School Inspector was a Strathmore visitor Tuesday, evening.

The Ladies Aid of the United Church will meet Thursday, Sept. 3, at the home of Mrs. Anton Pierson.

Born to Mrs. Arthur Polley, Sunday, Aug. 23, a baby girl, in the General Hospital, Calgary.

Miss Annie McGregor has secured a position in Calgary. Good luck, Annie.

Mrs. Gene Giroux has returned to her home again following an appendix operation.

Bill Glendinning has leased the house recently vacated by Mr. M. MacKenzie. What does this mean?

### NEXT MAYOR?

Tuesday next, nominations will be received for the position of mayor for the town of Strathmore.

This is an important post that requires keen judgment and good business administration.

We have three or four men who could fill the chair capably. Citizens of Strathmore have the opportunity to work for their town by electing the best man.

### CROWFOOT

— BY J. S. —

Mrs. Elmar Peterson of Edmonton who recently visited her parents, Mr. and Mrs. S. F. Garriot returned last Sunday to Edmonton.

Sylvia Warrington of Calgary after spending several pleasant weeks with her grandparents, Mr. and Mrs. S. F. Garriot returned last Sunday to her home.

Mr. and Mrs. H. T. Lawson of Lyalta have sold their farm to Mr. Brown and son of Twin near Three Hills and Viking. The Lawsons' after visiting friends in Washington will make their home in Vancouver. Their many friends will regret their departure.

### CAPTAIN R. ELDERD MISSING AT DIEPPE

Dick Eldred as he was known to a number of Strathmore friends is reported missing since Dieppe.

Mr. Eldred spent his early life in India. He came from England about 1927 to Strathmore, with Wm. Tew and worked for some time on the C. P. R. Farm where he won the E. W. Beatty Farm Scholarship for proficiency.

While in Strathmore he married Miss Jordan of the local Telephone office, and two children were born to them. He was a member of the local branch Canadian Legion.

In 1928 he joined the Lord Strathcona Horse in Calgary and early in this war he left for England with a Tank Corps, in which he received the rank of Captain. He leaves a number of friends in Strathmore who will regret this message from Dieppe.

### CARSELAND

### MEETS DEATH RIDING TRUCK PROVINCIAL GOVERNMENT EMPLOYEE HEART ATTACK VICTIM

James Fritz, Carseland, an employee of the public works department of the provincial government died as a result of a heart attack while riding in a truck about a mile and a half from the Beddington Highway corner, Wednesday evening.

Another employee was with Fritz in the truck at the time and he telephoned at once to the R.C.M.P. who with Coroner Dr. Johnson made the investigation.

The body was brought to Park Memorial Home. Funeral service date will be announced later.

Word has been received that Burrell D. Cote of the Calgary Tank Brigade is safe and well after his experience in the invasion of France. He is a son of Walter Cote of Carseland.

Mr. and Mrs. O. Monsson and family of Edgerton, Alta., visited for a few days at the Parsonage in Carseland on their way through to Cranbrook, B.C.

### EXTRACTS FROM A LETTER FROM MRS. SPRINGTHORPE TO A STRATHMORE FRIEND

You ask me to explain about the coupons and what they are worth. Well, I will try and give you an idea how we are rationed and what it means in food each week. I don't think that will be divulging any information, for rations and ration cards have been in the news now for nearly three years. We have to register for Butter, Sugar, Cheese, Eggs, Margarine and Cooking Fat, Meat and Bacon. That means that we are only allowed to buy at the one shop. If it was over there it would mean that should register at Shrimpton's you would have to buy your things there and not be able to go to Libin's at all for any article that comes under the rationing. Our weekly allowance of butter is 2 ozs. Margarine 4 ozs. of cooking fat, 2 ozs. making half a lb. of grease all told. The cheese allowance is 3 ozs. at present but we have had it as low as 1 oz. Eggs vary according to the time of the year, but for ages it was only one per person per month. This is our first allowance of dried eggs and I believe we are to have one tin each per month in addition to our shell egg ration. I have often pictured you beating up a dozen egg whites for your Ansel Food Cakes and wondering what you would do with one a month. Our bacon ration is 12 ozs. weekly and the meat has to be in value rather than ounces. We are each allowed 1-5 worth each week or 28 cents. This includes bone as well so you can tell we don't see much meat. Nevertheless it's really remarkable how the Mums manage. We have our money's worth always at the week end so that we have meat for Sunday and the rest of the week we whistle for it.

Then we are each allowed 24 points each per month. These cover such things as tinned fruit (when available) salmon, tinned fish and meat of all kinds, dried fruit, breakfast cereals and ordinary cereals like rice and tapioca. The value of these points change from time to time according to existing stocks of foods so I cannot give you a really good list but I will try and give you an idea. At first a tall tin of salmon was worth 24 points so if you had one of those it meant you couldn't have any other articles for a month. For a while that value even went up to 32 points so unless there was more than one in the family it was impossible to have one at all.

Herrings and Pilchards are each 12 points and cooked meats usually mean one point per ounce according to the size of the tin.

Prunes, raisins, Sultanas, etc. (when available) vary from six to 12 points per pound. Tinned peas and beans also come under these regulations but we never have enough points for those so I really do not know how they are decided.

Our weekly sugar ration is half a pound and our jam (which includes syrup, honey, lemon curd, etc.) is one pound per head per month.

Of course we are rationed for clothes as well. Last year we had 66 coupons for a year. I must say that at first I thought that would be plenty but when you come to give up 18 for a coat, 11 for a woollen dress, 7 for a silk dress, 5 for shoes or slippers, 2 for each pair of stockings, 2 for gloves 3 for each vest, 3 for knickers, 4 for a petticoat and 8 for a pair of pyjamas you can see how quickly they disappear. We can get 2 ozs. of knitting wool for one coupon but I am afraid there isn't much chance of new wool these days. These are only a few items for you to think about and do get some brainwaves and write and tell me how I can best use my few.

This time we have only 60 coupons and they have to last for fourteen months.

Our tea ration is 2 ozs. per week but we do not have to register for that but can take our coupons to any shop we like and buy it. It's a good job we are rational to coffee or perhaps I should say it's a good job coffee is still purchasable and not rationed.

I hope you can understand what I have tried to convey but don't get the idea that we are starving. We are still getting plenty of bread (not white anymore) and just at present we are making the most of our lettuce in the garden. The housekeepers are really, heroines and no fooling and I for one wouldn't want to try and qualify for their jobs.

### OBEEDIENCE

Ah, how skillful grows the hand That obeyeth love's command. It is the heart and not the brain That to the highest doth attain. And he who follows love's behest Far exceedeth all the rest.

Longfellow.
